

Advanced Manufacturing Accelerating Growth Program – successful grantees - Round 6 - September 2024 to January 2026		
Muir Engineering Group Pty Ltd	To assist the recipient in expanding and improving both production and research and development capacities.	\$99,710
Southern Ocean Subsea Pty Ltd	To assist the recipient with the expansion of Southern Ocean Subsea’s advanced manufacturing capabilities for production of complex componentry of the Apama ROV NRS in Tasmania.	\$99,068
Pivot Maritime International Pty Ltd	To assist the recipient to facilitate the production of advanced ship controls systems for the simulation, shipbuilding and training sectors of the global maritime market	\$100,000
Marine Resources Pty Ltd	To assist the recipient with the acquisition of advanced manufacturing equipment to scale up production of ultra-high purity fucoidan compounds	\$93,572
Betaserv Pty Ltd	To assist the recipient with the expansion of advanced testing capacity in Tasmania	\$32,000
McElligotts (Tas) Pty Ltd	To assist the recipient in the addition of a second process line to enable the manufacturing process of large steel infrastructure projects	\$87,500
Lightning Protection International Pty Ltd	To assist the recipient to upgrade injection moulding capability and capacity	\$99,500
Taz Drone Solutions Pty Ltd	To enable the recipient to enhance its advanced production line, bringing all critical drone manufacturing processes in-house for full lifecycle control	\$82,852
Progress Control and Engineering Pty Ltd	To enable the recipient to significantly expand their Tasmanian capability to manufacture advanced electrical switchboard products.	\$87,250
Basser Millyard Pty Ltd	To enable the recipient to acquire a 3-D Printer.	\$24,198
Indicium Dynamics Pty Ltd	To enable the recipient to undertake the expansion of their manufacturing capabilities for the production of their innovative product, Fire Foresight.	\$100,000
Cult Organic Products Pty Ltd	To enable the recipient to fit out their Tasmanian facility with the equipment necessary to support scalable, efficient, and high-quality production, allowing the meeting of its growing demand with the ability to drive future expansion.	\$73,750
Tasmanian Seed Dressing and Storage Pty Ltd	To assist the recipient with the purchase of advanced machinery to enable local processing of vegetable seeds, enhancing efficiency, precision, and capacity in Tasmania's seed cleaning industry.	\$100,000
Van Diemens Land Creamery Pty Ltd	To assist the recipient in the development of innovative health-conscious freeze-dried ice cream, minimising waste and showcasing Tasmania’s best.	\$90,000
Penguin Composites Pty Ltd	To assist the recipient with the purchase of updated equipment, enabling faster and more efficient manufacturing processes.	\$13,405

Hale Farm Pty Ltd	To assist the Recipient to develop scaled cannabis cultivation for affordable medicines	\$74,500
Tasmanian Botanics Pty Ltd	To assist the Recipient to with the purchase of dehumidifiers as part of new drying facilities	\$99,900
