The awards

The Premier's Tasmanian STEM Early Career Researcher of the Year Award 2024 (the Award) recognises the achievements of the state's leading early career researchers working in the fields of science, technology, engineering and mathematics (STEM) researchers and highlights the importance of innovation in growing Tasmania's community and economy.

Supported by the Tasmanian Government, Inspiring Australia, and University of Tasmania, the Award will recognise an individual's academic achievement during the 2022-23 and 2023-24 financial years.

The Tasmanian STEM Excellence Awards provide the finalists with an excellent opportunity to build networks and relationships, and to raise their profile. The Award, consisting of a \$5,000 cheque and trophy, will be presented at the Tasmanian STEM Excellence Awards reception on 13 November 2024.

Benefits to the winner and nominees

The benefits from participating in the Tasmanian STEM Excellence Awards are numerous.

The Awards provide:

- recognition and exposure for participating companies and individuals
- opportunities for networking and forming business and research alliances amongst participants, including other industry representatives, academics and teachers
- a platform for participants to benchmark their products and services
- a 'showcase of success stories' for Tasmanian firms and individuals that are developing innovative STEM research outcomes
- media exposure for products, participating firms and individuals.

How to apply

To enter the Tasmanian STEM Early Career Researcher of the Year Award complete this application form and submit it to the Manager of Inspiring Australia Tasmania by:

6:00 pm Friday, 4 October 2024.

Eligibility

Applications are invited from individuals employed and/or undertaking STEM research activities in Tasmania. Individuals from research agencies funded by the Tasmanian Government are eligible whereas those from state government departments are not. Applicants of this award may not apply for the Premier's Tasmanian STEM Researcher of the Year Award in the same year.

Applicants should hold a PhD, attained no more than 10 years before the current financial year.

Career interruptions will be assessed on a case-by-case basis consistent with the [ARC DECRA scheme](#), please contact the IA Manager to discuss before submission.

Previous winners of this category are not eligible to apply, but previous applicants are invited to re-apply.

Judging

The judging panel members will be selected on the basis of their knowledge and expertise in the STEM research development fields.

Selection criteria

The Award will be presented to an early career STEM researcher who has shown excellence in a STEM research area over the 2022-23 and 2023-24 financial years. In making its selection, the judging panel will consider the attributes of the applicant, the merit of the applicant's achievements and the potential of their research to positively impact on both the Tasmanian community and economic development.

Other conditions

As a successful recipient of the Award, you may be invited to serve on the judging panel for that award category in the year following your attainment of the award. You may also be invited by the Tasmanian Government, Inspiring Australia, and University of Tasmania to take part in a limited number of STEM engagement events, such as Science Meets Parliament, Innovation Forums, and student outreach programs if available.

Submitting an application

To enter the Tasmanian STEM Early Career Researcher of the Year Award 2024, complete this application form and submit it to Inspiring.Tasmania@utas.edu.au by:

6:00 pm Friday, 4 October 2024.

Please note attachments are limited at two files (two pages only per attachment). For larger files please provide a link accessible via a website or contact the Inspiring Australia Tasmania team via details below to discuss.

Terms and conditions of entry

1. All applications must be received in full by the Manager of Inspiring Australia by the closing date in these guidelines. Late applications will not be accepted.
2. Applicants will be competitively assessed on the basis of their application. The coordinators of the Awards or members of the judging panel may contact the applicants to seek further information and/or clarification.
3. Applicants must agree to abide by the decision of the judging panel.
4. All material submitted will be used solely for the purpose of applying for this Award and will not be circulated. No material relating to an Applicant's entry will be publicised without their prior approval.
5. Photographs submitted in Section A of this application will be used solely for purposes related to the Tasmanian STEM Excellence Awards presentation ceremony.
6. The coordinating committee reserves the right to revoke an Award, re-award an Award or withdraw any application from consideration for the Award if the applicant is in breach of any of these terms and conditions.
7. Finalists should use their best endeavours to attend or be represented at the Award ceremony. Attendance by applicants at the presentation ceremony is encouraged.
8. Applicants enter the Awards at their own risk and the organiser will not be liable for any loss, damage or expense incurred by the applicant as a result of entering an application in the Awards.
9. Applicants agree to do all things reasonable to participate and/or cooperate with any promotional or media activities conducted by the organisers and sponsors in relation to the Tasmanian STEM Early Career Researcher of the Year Award 2024.
10. No contractual or other legal relationship shall arise between the members of the judging panels, the organisers, sponsors and any organisation applying for the Awards.
